PRESIDENT: The amendment to the committee amendment is
adopted.   Senator DeCamp, do you want to handle it now?

SENATOR DECAMP: Mr. President, this is a bill relating to
insurance I think.   It has got a whole bunch of stuff in it.
There were two separate bills, one brought in by Bill
Barrett to redo all the insurance stuff and one brought in
by the committee at the request of the Insurance Department.
We repeatedly brought together   Barrett, the Insurance
Department, insurance agents, all the adverse parties and
finally reached a complete agreement on everything.   They
all had their adverse interests.   They are all embodied in
this bill and they are embodied then in the committee
amendments which become the bill   which has just one
god-awful amount of stuff in it.   Should I read them or not?
Trust me, it is a good bill and it has been agreed to by all
parties and I urge you to adopt it and I will give you a
copy of this long complicated thing that has at least a
hundred things in it if you want. It is from the committee
statement. You can read it there. It is just incredibly
lengthy and complicated and incomprehensible in most cases.

PRESIDENT: Is there discussion on the committee amendments
to LB 801? If not, all those in favor of adopting the
committee amendments to LB 801 vote aye, opposed vote no.
We are voting on the adoption of committee amendments to
LB 801.   Please record your vote.   The Clerk will record.

CLERK: 26 ayes, 0 nays on adoption of committee amendments,
Mr. President.

PRESIDENT: The committee amendments are adopted. Senator
Barrett.

SENATOR BARRETT: Thank you, Mr. President and members, as
Senator DeCamp has said, the Insurance Producers Licensing
Act is a product of a lot of work within the insurance
industry.   Last summer Insurance Director Mike Dugan and
members of his department, insurance personnel from the
field, members from insurance companies met, started working
on a revision of insurance statutes.   These insurance
professionals represented all segments of the insurance
